

We the subscribers attended the annual examination of Moor's Indian Charity School, August 19th. 1814, and can cheerfully certify, that the several classes appeared to have paid a laudable attention to their studies, and to have made such improvement as reflects honor upon themselves and upon their Instructor. We were pleased with the progress, which the Indian youth had made in the language and other things, to which he had attended during the year past. We have a very favorable opinion of the manner, in which the school has been conducted during the past year, in the exertions used to improve the minds, and form the religious sentiments and morals of the members, who compose it.
