We, the subscribers, attended the annual examination of Moor's Indian Charity school August 15th 1815, and certify that there appeared to have been an auspicious attention to the improvement of the youth, on the part of the instructors, as evinced by the proficiency of the several classes in their studies. Lewis of the Oneida tribe of Indians was question'd in Theology & answered to our satisfaction. He has, the past season, become the hopeful subject of a change from darkness to light, has been baptized and made a public profession of religion. The two Seneca youth Jacob & James, and John of the Stockbridge tribe have progressed as rapidly in acquiring a knowledge of the English as could be expected as also Simon of the St. Francois tribe. We are favourable impressed with the manner in which the school has been conducted the year past as it regards the literary & moral improvement of the members.
